```

1  # 192525411silrats-code
2
3  ## Project Purpose
4  This project demonstrates GitHub repository creation and version control workflow.
5
6  ## Repository Setup
7  - Created repository on GitHub
8  - Cloned repository to VS Code
9
10 ## Branching Strategy
11 - main : Production-ready code
12 - module-login : Login module development
13 - module-dashboard : Dashboard module development
14
15 ## Workflow
16 1. Create a new branch for module development
17 2. Make changes and commit
18 3. Push changes to GitHub
19 4. Create a pull request
20 5. Review and merge the pull request
21 6. Deploy the application
22
23

```
